THE GOLF QUEST 4 CLINICAL TRIALS

THE \$10 MILLION GOLF EXPERIENCE

**Re: Partnership Opportunity
Fourth Annual Golf Quest 4 Clinical Trials**

As a member of the organizing committee, it is with great pleasure that I invite you to attend the fourth annual ***Golf Quest 4 Clinical Trials*** in support of The Ottawa Hospital at the **Canadian Golf and Country Club**. **The event has been rescheduled to Wednesday September 23, 2020 as a result of COVID-19 pandemic.**

Over the past 3 years the tournament has raised \$4.7M (45% of our goal) and this year we hope to continue the success towards a **ten year commitment to raise \$10 Million for Clinical Trial research**. Clinical trials help enhance current treatments, develop new drugs, and compare various treatment options to identify which is most efficient. They are crucial to the progression of health care and even more important, they provide hope to patients for whom standard treatment options are no longer effective. Researchers at The Ottawa Hospital are leaders when it comes to recruiting patients to participate in clinical trials — giving them immediate hope.

In addition to enjoying a round of golf among friends, your involvement will help support The Ottawa Hospital's clinical trials. ***The Golf Quest 4 Clinical Trials*** has been designed to be a premiere fundraising golf tournament and charity auction **where every dollar raised from the tournament will be leveraged with ten matching dollars** from various levels of government, granting agencies and corporate partners! **This is an unprecedented leverage that will enable us to hopefully raise \$1.5M this year.**

In light of the current COVID-19 pandemic we are pleased to announce that this year's Golf Quest fundraising efforts will be directed to COVID-19 Trials. Below is a link that details the COVID-10 research priorities that the Ottawa Hospital has been able to mobilize to support all new COVID-19 research and innovation ideas.

Researchers join the fight against COVID-19 – <http://www.ohri.ca/newsroom/story/view/1216?l=en>

This year's event will bring together local business professionals, entrepreneurs and successful individuals with the capacity and desire to support The Ottawa Hospital, and offers numerous opportunities for partners to actively participate in the event. Partners will benefit from an affiliation with the top grossing single-day golf tournament supporting medical research through clinical trials in Canada.

What sets this tournament apart from other events?

- **Unprecedented 10:1 Matching Dollars** enables participants to leverage their contributions
- Organizing committee with **track record of raising over \$20M in the past 20 years**
- Extensive media coverage to raise the event's profile
- **Recognizable personalities and NHL Alumni on the golf course throughout the tournament**
- **Great Registration gift package** – each golfer gets to choose between 3 gift packages, each worth over \$450 in value, along with and a dozen Titleist golf balls
- **Food stations on the course sponsored by great Ottawa restaurants.**
- Lunch, cocktail reception, dinner, wine and on course beverages all included
- **All-inclusive passport** for the On course activities, contests and prizes
- **Great prizes and giveaways with amazing Live auction, Silent auction and Raffle prizes**

Attached is a list of partner packages that outlines numerous levels of participation and related benefits which will ensure your company receives recognition and acknowledgment of your support. (Importantly, it can be further customized to meet your specific marketing needs.) We offer four key ways for corporations to get involved: **sponsorship, gifts-in-kind, corporate foursomes, and donations**. I am certain you will be able to find one that is suitable to your preferred level of involvement.

Thank you for taking the time to review this brochure and giving consideration to your participation. With only 192 spots available this tournament we are hoping to sell out this year's event and make a significant contribution to Clinical Trials for COVID-19 research.

Yours truly,

Members of the Organizing Committee
